

## Mandate

The North Shore Recycling Program (NSRP) is the local municipal recycling department for the City of North Vancouver, District of North Vancouver, and District of West Vancouver, British Columbia, Canada. Jointly funded through utility fees by these three municipalities, and managed by the District of North Vancouver, the NSRP plans and administers all municipal residential recycling and waste reduction activities on the North Shore, including the contract with our current collection and processing contractor, Waste Management of Canada .

Our mandate is to plan and administer recycling and waste reduction activities in the area - but the NSRP does much more... School education and liaison programs, community events, lecture series and workshops, North Shore Recycling Drop-off Depot and working with the public are all part of our day-to-day activities.
